ArunKumar B

Senior UI UX Designer

arunkumar531b@gmail.com +91 9941795636 Chennai, TN, IN arunpixels.github.io

Summary

Senior UI/UX Designer with experience designing enterprise applications and SaaS products across Banking, HRTech, and Logistics. Skilled in UX design, workflow optimization, interaction design, and design systems, with a focus on translating complex business requirements into intuitive, user-centered digital experiences. Experienced in collaborating with cross-functional teams to deliver consistent and scalable design solutions.

Work

Senior UI UX Designer, *Ideas2IT* 11/2025 – 03/2026

- Designed and enhanced performance management workflows to improve task clarity and usability.
- Redesigned cycle navigation and introduced multi-cycle visibility to support comparison across performance periods.
- Designed a concern-raising feature to facilitate communication between stakeholders and clarify approval workflows.
- Improved information hierarchy by grouping related data, making interfaces easier to scan and understand.
- Designed role-based interfaces for employees, managers, and stakeholders to support their specific workflows.
- Leveraged basic JavaScript and React knowledge to understand interactive behaviours in performance management workflows, including cycle navigation and role-based interfaces.
- Collaborated with product and engineering teams to translate business requirements into user-centered design solutions and align UI interactions with frontend implementation requirements.

UI/UX Designer, *Krishpar Technologies (1cloudhub)* 05/2025 – 10/2025

- Designed and iterated SaaS product interfaces using Figma and Cursor AI, aligning designs with business and stakeholder requirements.
- Designed an MVP module to support modular feature rollout and product scalability.
- Created responsive, mobile-first interfaces to support efficient user workflows across screen sizes.
- Developed and maintained a design system covering typography, colors, and reusable components.
- Designed workflows for pricing models, cost distribution, and customer migration in collaboration with cross-functional teams.
- Utilized Cursor AI alongside foundational JavaScript and React knowledge to explore frontend components and interactive SaaS interfaces.
- Incorporated HTML and CSS principles into responsive layouts and reusable UI components to support consistent frontend implementation.

Consultant, *Virtusa* 06/2022 – 06/2023

- Collaborated with product managers and developers to deliver user-centered web and mobile banking solutions aligned with business objectives.
- Created wireframes, interactive prototypes, and high-fidelity mockups in Figma for banking applications.
- Conducted usability testing, analyzed user feedback, and iterated designs to improve usability and user satisfaction.
- Participated in design reviews and Agile sprint planning to align design solutions with project goals and timelines.
- Presented design concepts and rationale to stakeholders, highlighting user value and supporting informed product decisions.

UI/UX Designer, *CMA CGM GBS* 09/2019 – 06/2022

- Designed intuitive internal tools for export documentation, improving workflow efficiency and reducing operational errors.
- Created user-friendly interfaces and optimized workflows to streamline complex shipping and logistics processes.
- Gathered user requirements and translated business needs into wireframes and interactive prototypes, enabling effective design validation.
- Conducted usability testing and iterated designs based on user feedback to improve task clarity and overall user experience.
- Collaborated with stakeholders and development teams to deliver user-centered solutions aligned with logistics and operational requirements.

Executive, *CMA CGM GBS* 02/2017 – 09/2019

- Managed customer statements, overdue invoice follow-ups, and payment-related queries.
- Processed cash applications by matching customer payments to outstanding invoices and resolving discrepancies.
- Prepared daily reports, including unapplied payment reports, and supported accounts receivable operations.

Skills

UI/UX design & process
User Experience (UX) Design, User Interface (UI) Design, Interaction Design, Wireframing, Prototyping, User Flows, Information Architecture, Design Systems, Responsive Design, Visual Design, Usability Testing, Heuristic Evaluation, Accessibility (WCAG), Design Thinking

UX Research & Evaluation
User Research, User Interviews, Surveys, Competitive Analysis, User Journey Mapping, Persona Development

AI-Assisted Design
AI Tools, AI-Assisted Design, AI-Powered Ideation, Rapid Prototyping, Design Iteration, Workflow Optimization, AI Tool Adoption, Team AI Training

Collaboration
Agile/Scrum Methodology, Cross-Functional Collaboration, Developer Handoff, Design Documentation, Stakeholder Communication, Problem Solving

Product Thinking
Problem Solving, Feature Prioritization, User Pain Point Analysis, Business Goal Alignment, Product Metrics Awareness, Retention Thinking, Conversion Thinking, End to End Product Design**.**

Tools
Figma, Figma make, FigJam, Cursor AI, Google stich, Adobe XD, Adobe Illustrator, Canva, CorelDRAW, Articulate 360

Technical Skills
HTML, CSS, JS, React.js, Node.js,

Education

Logistics and SCM | MBA, *University of Madras* 12/2020

Computer Applications | B.com, *RKM Vivekananda College* 12/2015

Certificates

Professional Certificate UX Design
